"MASTER BUILDER" MACHINISTS' HAMMERS

"The Best That Money Can Buy"

FULL POLISHED

Forged from MASTER STEEL, the finest steel obtainable for the purpose.

Every tool is given individual treatment in tempering and is subjected to a special test many times as severe as it must withstand in use.

The Ball Pein, which is longer and heavier than in other makes, gives an even balance or hang that makes the hammer swing more easily. It is consequently less tiring to the wrist and arm.

The longer neck enables a mechanic to reach work that would not otherwise be touched.

Weights do not include Handles.

MASTER LATHER HATCHETS

"The Best That Money Can Buy"

Master Lather Hatchets are made by hand from Master Steel, the finest steel obtainable for the purpose.

Every *Tool* is given individual treatment in tempering and is subjected to a special test many times as severe as it must withstand in use.

The *Scoring* is double forged by a new process invented by us, and is guaranteed twice as durable as the milled scoring used in the best Lathing Hatchets of other makes.

The *Edge* of the Master Lather is the most remarkable for toughness and hardness ever produced.

A trial will convince any mechanic that our claims are justified. If the above statements are disproved after a fair test by the lather, he is hereby authorized to reclaim his money from the dealer.
